

2024 CORPORATE VOLUNTEERING

NYC'S PARKS AND GREEN SPACES NEED YOU!

Through our Corporate volunteer program, employees from New York City's leading companies join forces with NYRP for an impactful outdoor team-building experience to help keep our city's vital open spaces clean and green. We welcome your team to volunteer with us to restore and revitalize our two northern Manhattan parks, steward our 52 community gardens, or work with community-based organizations to transform their disused outdoor spaces into beautiful gardens.

As the only city-wide land conservancy, we offer project opportunities in all boroughs, including in NYRP-managed parkland in Northern Manhattan easily accessible by public transit.

Volunteers can join us for a half-day event to help us pick up trash, plant wetland grasses, renovate community gardens, or plant and care for trees in disadvantaged communities.

We offer a variety of outing formats to match your engagement goals and can accommodate large and small groups.

Mobilized employees will see the impact of their support through these transformative projects, and NYRP staff will take care of everything needed for a safe, high-quality experience. Volunteers are only required to bring closed-toe footwear and long pants.

At each event, NYRP will provide:

- Site prep, plants, and tools
- PPE
- Training by NYRP's field crew
- PR, social media, and informal event photos
- Catered picnic lunch, snacks, and water.

Events begin at \$5,000 and are subject to project availability, scheduling, and weather.

For more information or for other sponsorship inquiries, please contact James Healy at jhealy@nyrp.org.
